WHAT MAKES THIS AN EMERGENCY? DESCRIBE WHY IT IS ESSENTIAL TO PERFORM THE WORK DURING THE SUMMER SEASON?

I ordered a garage door to replace the one failing and it was supposed to come in within 9-10 weeks, but now is extended to 14 weeks due to COVID back log. They will install in one day when it comes in, but I am afraid it will be after the June 25 date. I could wait till September to install if needed but current one is pretty rickety.

HOW CAN YOU KEEP THE REPAIRS TO A MINIMUM DURING THE SUMMER SEASON AND COMPLETE THE WORK OFF SEASON?

It will be done in one day. And hopefully It is done before June 25.

Thanks - I hope it comes in before Hammer Law and everything is all set!
